DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(c), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(c) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 07/06/2009 has been entered.

Response to Amendment

2. The amendments, filed 07/06/2009, have been entered and made of record. Claims 1, 11, 12 and 22-26 are pending.

Claim Rejections - 35 USC § 102

3. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
4. Claims 24-26 are rejected under 35 U.S.C. 102(e) as being anticipated by Hyodo et al. (US 7,034,881).

Regarding *Claim 24*, Hyodo teaches an image processing device (Fig. 3) for processing an image using image data, comprising:

a judging section that executes a decision as to whether or not to execute adjustment processing, based on image data representing a first average brightness value in a partial area

including subject position and a second average brightness value for the entire image (col. 10:35 - col. 11:27); and

an adjuster that executes, in case it is decided to execute the adjustment processing, processing to increase a brightness value of at least some pixels in the image (col. 12:13-23).

Regarding *Claims 25-26*, although the wording is different, the material is considered substantively equivalent to the material associated with claim 24, as discussed above.

Allowable Subject Matter

5. Claims 1, 11, 12 and 22-23 are allowed.
